NEWS RELEASE

Suntell Announces LMS Version 18.1

Cayenne Release Available for Customers

August 25, 2014: The latest version of the Suntell Loan Management System (LMS) has been finalized and made available for customer distribution. The release, Version 18.1, or the “Cayenne” release includes new functionality such as spread projections, emailing Documentation Tracking letters, and several new portfolio reports. Feedback was received from several customers throughout the development cycle, and the response was very positive.

The release has been installed with several customers who requested to be in the first group, and will be made available for general distribution in the coming weeks. Full release documentation is available within the Customer Portal on the Suntell website.

For more information, please contact Customer Support at support@suntell.com.
